	Refinance - required		

A mortgage need not be signed by the nonowner spouse if the spouse has not, prior to conveyance of the property, filed a notice of divorce action with the registry of deeds. This protection is on all purchase money or other actual consideration given in good faith by the mortgagee to the owner. Although there is a homestead exemption, the mortgage lien is not under the homestead exemption thus a nonowner spouse is not required to sign the mortgage for refinance transactions.

• <u>Refinance</u> : both spouses must sign the security instrument if both spouses are on title. If one spouse requests to be removed from title, we must obtain the appropriate release of rights instrument (warranty deed, grant deed, etc.).
